 ADD A SPLASH OF PERSONALITY & PROTECTION TO YOUR RIDE

UNMATCHED PROTECTION

Car enthusiasts frequently wrestle with the continuous incursion on their car's paint, stemming from factors such as driving your car on the road that lead to scratches, erratic weather, road debris, and the inevitable wear and tear of daily use. This can become a burdensome and expensive endeavour to preserve the vehicle's aesthetics. Every car owner knows the challenges of maintaining a vehicle's flawless exterior. From rock chips to insect stains, from UV damage to minor scratches, these issues can ruin the beauty of your prized possession.

Ultraguard comes with the answers to these problems, offering a wide selection of solutions, including clear, colored, textured protective films & matte finishes for a unique look, hydrophobic properties for lasting cleanliness, and self-healing capabilities to erase those frustrating imperfections.

Ultraguard PPF addresses these challenges head-on, providing not just protection but also peace of mind. Our films are engineered to shield your vehicle against these everyday adversaries, ensuring that your car's exterior remains as impressive as the day you drove it off the lot.

solution to prevent
vehicle paint damage.*

GATHERING THE WORLD'S TOP RESOURCES AND LEADING THE INDUSTRY

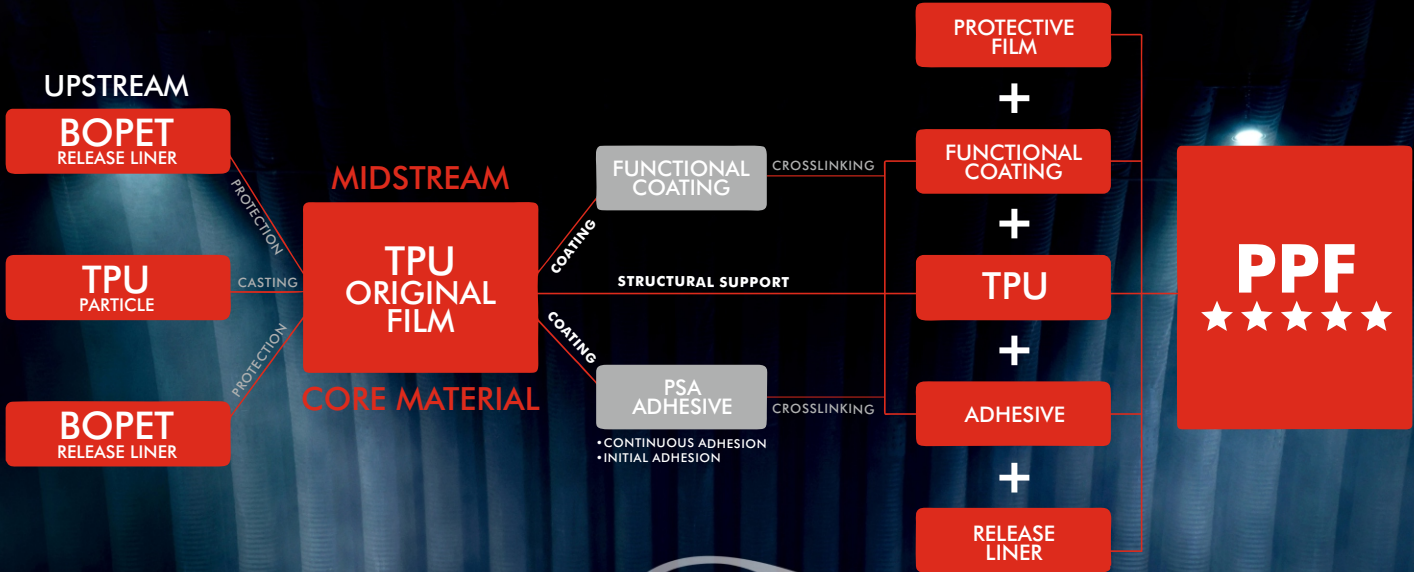

About Manmachine Group:

Manmachine Group has established itself as a stalwart in the automotive care industry, earning trust through years of dedicated services. Our 37 Years journey has been marked by a dedicated commitment to quality and customer satisfaction, ensuring that every vehicle we touch reflects our excellence. Renowned for our pioneering approach, we've become synonymous with unparalleled cleaning and protection services, continually setting benchmarks in the automotive sector. Our reputation is not just maintained by our history but is renewed with each vehicle we service as we carry forward our legacy of being industry forerunners.

History:

Ultraguard's history is a story of evolution and innovation. Founded with a vision to revolutionize automotive protection, Ultraguard has continually pushed the boundaries of paint protection technology. Over the years, it has evolved into a trusted name in the industry, offering cutting-edge Paint Protection Films (PPF) that shield vehicles from the harshest elements and preserve their aesthetic beauty.

Our Commitment: At Ultraguard, our commitment is unwavering. We pledge to provide top-tier protection and preservation for your beloved vehicles. Our dedication is rooted in innovation, ensuring our Paint Protection Films (PPF) remain at the forefront of technology. Quality is our hallmark, with PPF crafted to the highest standards. Customer satisfaction is our guiding light, as we strive to exceed your expectations. Environmental responsibility is our duty, and we prioritize sustainable practices.

Expertise is our cornerstone, with a team of dedicated professionals applying their knowledge and skill to safeguard your vehicles. Ultraguard's commitment is a promise to keep your vehicles in pristine condition, and we stand by it with pride.

THE ADVANCED CHEMISTRY BEHIND ULTRAGUARD PPF

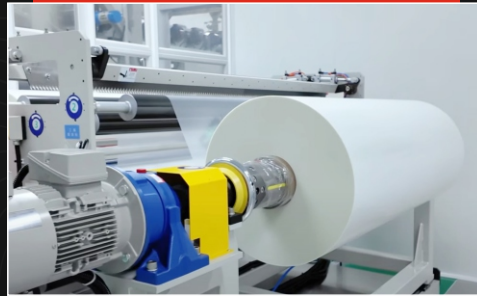

Ultraguard offers premium Paint Protection Films developed in collaboration with top-tier OEM manufacturers. Built in advanced facilities and tested through rigorous R&D, our films deliver exceptional clarity, durability, and self-healing performance.

From precision manufacturing to real-world reliability, Ultraguard combines innovation and quality to protect what moves you.

TAILORED ROLL LENGTHS

We offer customizable width and length conversions—producing shorter rolls for easier handling or longer jumbo rolls to boost production efficiency.

TAILORED COATING SOLUTIONS

Ultraguard provide custom coating services with a broad selection of adhesive and hard coat chemistries, compatible with various substrate options to suit your requirements.

ENGINEERED BY EXPERTISE

Our materials science experts collaborate closely with you to develop tailored PPF solutions, blending your technology with ours to deliver superior protection and performance.

COMPREHENSIVE OEM-GRADE PPF TESTING

Ultraguard Paint Protection Films undergo rigorous OEM-standard testing to ensure top-tier performance and durability. We offer a wide array of analytical, environmental, and application-specific tests designed to meet the highest industry benchmarks, including but not limited to:

VISUAL

- Self-Healing

FACTORS RISKING VEHICLE PAINT

The world of automotive beauty is a battle ground where your vehicles paint faces constant threats. From the relentless assault of weather elements to the unseen perils lurking on the road, every drive is a battle to maintain your car's pristine appearance.

So here are some of potentials risks that can compromise vehicle paint:

Accidental Scratches and Dings: Everyday mishaps in parking lot or on the road can lead to scratches and dents, diminishing the appearance of your vehicle.

Road Debris: Gravel, rocks, and even insects can chip, scratch, or dent your vehicle's paint. These seemingly minor issues can escalate into costly repairs.

Weather: Mother Nature is relentless. From the scorching sun's UV rays that cause fading to the corrosive effects of rain, snow, and hail, weather takes a toll on your car's exterior.

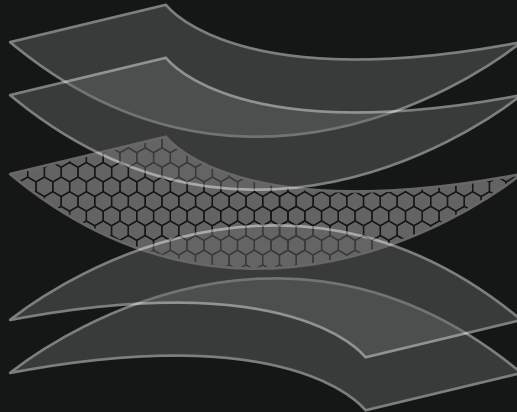

Environmental Contaminants: Airborne pollutants, tree sap, bird droppings, and industrial fallout are all culprits. They can leave unsightly stains and damage if left unchecked.

UV Radiation: Prolonged exposure to the sun's ultraviolet radiation can cause your paint to fade and lose its luster.

WHY CHOOSE ULTRAGUARD?

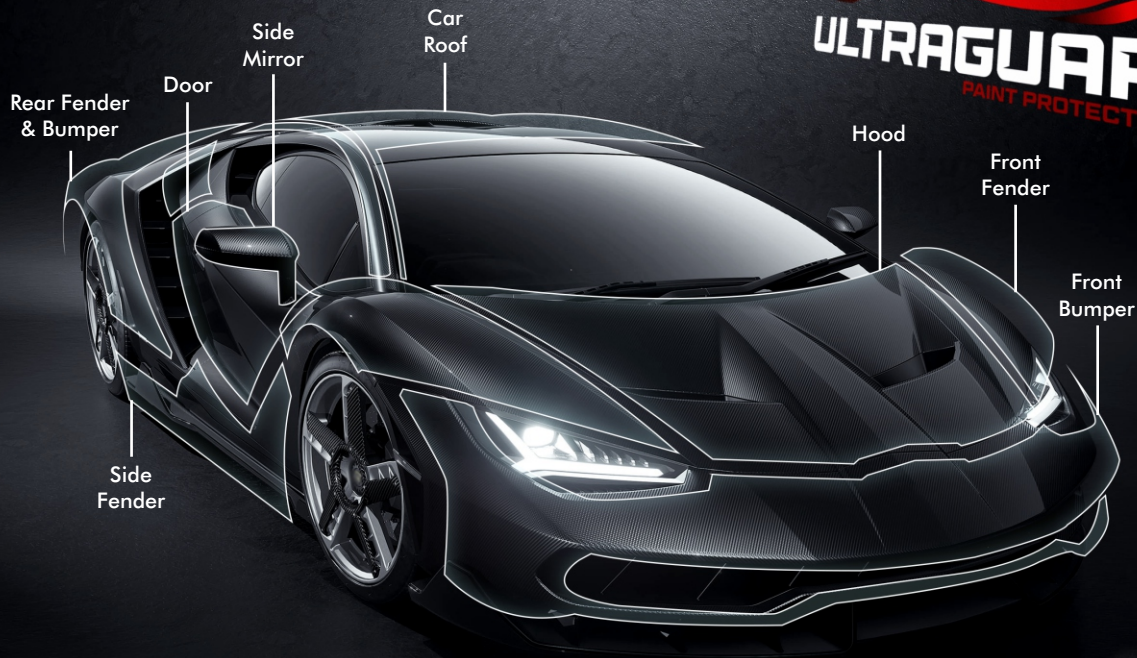

Every car owner knows the challenge of maintaining a vehicle's flawless exterior. From rock chips to insect stains, from UV damage to minor scratches, these issues can harm the beauty of your prized possession. Ultraguard PPF is the answer to these problems, offering a wide selection of solutions, including clear protective films, matte finishes for a unique look, hydrophobic properties for lasting cleanliness, and self-healing capabilities to erase those frustrating imperfections.

BENEFITS OF ULTRAGUARD PPF

In choosing Ultraguard, you're choosing more than just a brand; you're choosing sophistication, style, and the assurance that your vehicle's beauty remains unblemished. Elevate your ride, preserve your pride, and experience automotive care like never before.

Diverse Solutions: Ultraguard offers a versatile range of PPF, from crystal-clear to matte finish & color to texture finish, catering to individual preferences and styles.

Unmatched Protection: We provide unparalleled defense against weather, road debris, and everyday wear and tear, ensuring your car stays flawless.

Longevity: Ultraguard's PPF is engineered for durability, preserving your vehicle's shine for years and increasing its resale value.

Customer-Centric: Your satisfaction is our top priority. We take pride in exceeding your expectations by giving hassle-free online warranty.

ULTRAGUARD

PAINT PROTECTION FILM

CLEAR, MATTE & BLACK SERIES

CLEAR SERIES

Ultraguard Clear Paint Protection Film (PPF) emerges as the ultimate safeguard for your vehicle's immaculate exterior. This cutting-edge technology combines high-performance protection with crystal-clear visibility, ensuring that your car's aesthetics remain pristine. From rocks and road debris to bug splatters and UV rays, this advanced film is your car's first line of defense.

MATTE SERIES

Ultraguard Matte Paint Protection Film (PPF) stands out as a game-changer. This innovative technology seamlessly combines style and safeguarding, giving your vehicle a unique, non-reflective matte finish while offering unparalleled protection. Its non-reflective surface adds a touch of exclusivity while eliminating the sheen of conventional glossy paint.

BLACK SERIES

Ultraguard Black Paint Protection Film (PPF) stands as a testament to the perfect blend of style and protection. Black is not just a color; it's a statement of sophistication and individuality. This innovative technology redefines the art of safeguarding your vehicle's beauty while enhancing its unique look with Gloss Black and Matte Black PPF.

Boundless Style:

Underneath the dazzling exterior, Ultraguard Color PPF is a high-performance shield. It guards your vehicle against the usual suspects: rocks, debris, UV rays, and more.

Express Yourself:

Ultraguard Color PPF is an open invitation to unleash your creativity. Make your car stand out in the crowd, reflect your personality, or match your brand identity.

Protection:

Ultraguard Color PPF offers the best of both worlds – a durable, resilient shield that preserves your car's value and aesthetics.

REDEFINING VEHICLE AESTHETICS & PROTECTION

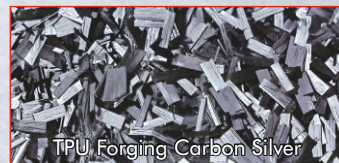

Discover the next level of automotive protection and style with Ultraguard – your ultimate destination for premium Paint Protection Films (PPF). **With 200+ stunning color options**, we offer one of the most diverse and vibrant PPF collections in the market today.

Choose from a wide variety of PPF types to suit your personal style and vehicle needs:

- **Solid & Liquid Metal Color PPF** – For a clean, bold look or a dynamic liquid metal effect that adds depth and brilliance.
- **Metallic & Flip-Flop Color PPF** – Experience colors that shift and shimmer with changing light, creating a truly dynamic look.
- **Matte, Satin & Texture PPF** – Add a unique touch with subtle finishes and textures that elevate your car's appeal while offering maximum protection.

Whether you're looking for high-gloss shine, head-turning flip effects, or a stealth matte finish, Ultraguard has the perfect solution to enhance and protect your ride.

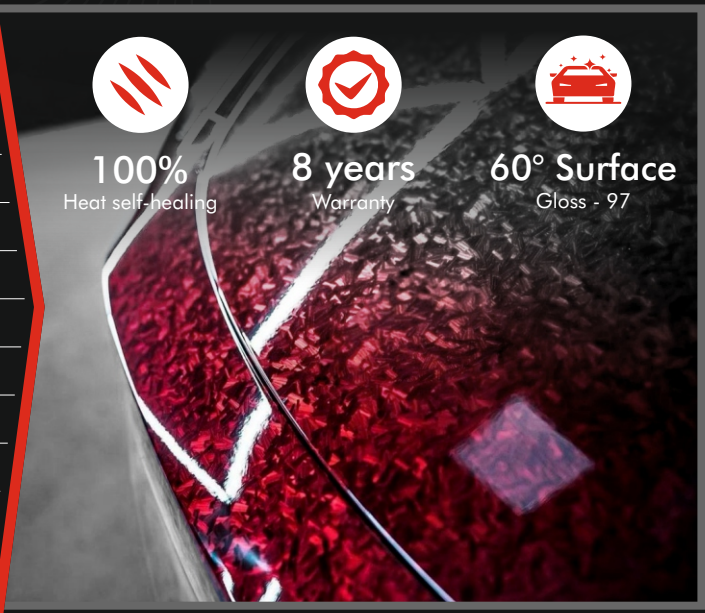

TEXTURE SERIES

FORGED CARBON PPF (TPU - 8 YEARS)

Ultraguard's latest Forged Carbon Fiber Paint Protection Film, now available in stunning red and silver forged colours. This cutting-edge PPF doesn't just shield your car; it elevates its aesthetic with a unique carbon fibre texture that's both tactile and visually dynamic. Transform your ride with the dual benefits of defence and style with Ultraguard's Forged Carbon PPF.
